EDUCATION

The University of Texas at Arlington
Bachelor of Science in Computer Information Systems

May 2026

EXPERIENCE

AI Evaluation Analyst (Contract)

August 2025 – January 2026

Mercor

Remote

- Evaluated and analyzed multimodal AI outputs across image, audio, and video datasets to assess model performance, alignment, and response accuracy against business-defined criteria.
- Conducted high-volume data annotation and quality assurance workflows supporting AI model optimization and fine-tuning initiatives.
- Identified quality trends and communicated actionable insights to cross-functional AI teams to improve model reliability and output consistency.

Event Planner

January 2021 – May 2025

Alpha Events and Decor

Dallas, TX

- Led digital transformation initiatives by coordinating development of an online wedding décor portal, collaborating with stakeholders to define business requirements and launch milestones, increasing web-based inquiries by **30%**.
- Managed cross-functional coordination across vendors, clients, and operational teams for **450+ events**, ensuring timely execution and resolution of high-priority issues.
- Conducted client interviews and gathered user feedback from **200+ customers**, translating insights into process improvements and iterative enhancements that increased customer satisfaction by **15%**.

PROJECTS

Internal IT Ticketing System | Systems Analyst

February 2026 – May 2026

- Collaborated in a 5-member team to design and prototype a role-based internal IT ticketing system, replacing unstructured shared-inbox workflows with a centralized ticket management platform featuring ticket tracking, approvals, notifications, and role-based access control.
- Conducted systems analysis and database design by defining functional requirements, UML/ER diagrams, and a 12-table 3NF relational schema while developing responsive UI workflows using **React** and **Material UI**.

MavGrades.com | Product Manager

July 2024 – May 2026

- Led strategy, planning, and execution of a university-wide grade analytics platform used by **25,000+ students**, collaborating with stakeholders to translate user needs into scalable technical solutions and improve academic decision-making.
- Partnered with engineering teams using Agile methodologies to deliver scalable front-end solutions in **Next.js** and **Tailwind CSS**, improving user engagement by **35%**.

Jurassic Parking

March 2025 – June 2025

- Developed an AI-powered parking optimization solution utilizing **YOLOv8** and **TensorFlow** to analyze real-time parking availability and improve operational efficiency.
- Led a team of 3 engineers in processing and analyzing **8,000+** image datasets to improve detection accuracy and reduce parking search time.

LEADERSHIP

Executive Director

January 2024 – May 2026

Association for Computing Machinery

Arlington, TX

- Led strategic technology and community initiatives for a **60+ member** organization, coordinating cross-functional collaboration between design, engineering, and operations teams.
- Developed data-driven outreach strategies generating **8M+ social media impressions** and increasing engagement across university initiatives.

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL, Swift, HTML/CSS, C/C++

Frameworks & Libraries: React, Next.js, Tailwind CSS, Node.js, Flutter, REST APIs

Databases & Cloud: MySQL, SQLite, Firebase, Vercel

Business & Analytical Tools: Agile Methodologies, Jira, Figma, Data Analysis, User Research, Process Mapping

Tools: Git, Visual Studio Code
